

PUBLIC NOTICE

PERMIT APPLICATION: NRS #04.448

APPLICANT: State of Tennessee
Department of Transportation
Environmental Planning and Permits Division
Suite 900, J. K. Polk Bldg.
505 Deaderick Street
Nashville, TN 37243-0334
615/253-2477

LOCATION: State Route 247 Bridge and Approaches over Carter's Creek
Maury County

WATERSHED DESCRIPTION: The Carter's Creek watershed consists of numerous tributaries draining a wide valley into a confluence with Walden Branch. Land use is predominantly rural agricultural. Carter's Creek is primarily cobble/gravel/silt bottomed and varies in width from approximately 20 – 25 feet wide with 8 - 10 foot banks. The existing vegetation along the stream channel is mature hard wood.

PROJECT DESCRIPTION: The applicant proposes to reconstruct bridge and approaches over Carter's Creek on SR-247. At Station 108+11.62 (Unnamed intermittent tributary to Carter's Creek) the existing culvert (40 ft. of 30" reinforced concrete pipe) and 170 ft. of open stream (total 210 ft.) shall be replaced with 75 ft. of 48 inch reinforced concrete pipe, 30 ft. of U-shaped endwalls, 31 ft. of riprap lined channel at the inlet and 55 feet of riprap lined channel at the outlet (total 191 ft.) As mitigation for the loss of 19 ft. of stream length and equivalent of 65 ft. of riprap impact (86ft. X 0.75), the applicant proposes payment, at \$200/ft., of \$16,800.00 to the Tennessee Wildlife Resources Foundation for the In-lieu Fee Stream Mitigation Program. Also at Station 106+08.5, the applicant proposes to replace 109 ft. of single span concrete girder bridge. Associated with this project are additional gas and water line relocation that would be covered under general permit. Standard erosion control devices would be used to prevent sediment from entering flowing water. Upon completion of the work, all disturbed areas would be stabilized.

PERMIT COORDINATOR: Brian Canada STATE OF TENNESSEE, Department of Environment and Conservation Division of Water Pollution Control, 7th Floor, L&C Annex, 401 Church Street, Nashville, Tennessee 37243-1534

USGS TOPOGRAPHIC QUADRANGLE: **Spring Hill, TN (63-SW)**

TO WHOM IT MAY CONCERN: The application described above has been submitted for an Aquatic Resource Alteration Permit pursuant to *The Tennessee Water Quality Control Act of 1977*, T.C.A. §69-3-108.

The purpose of this notice is to advise all concerned of the proposal for which a permit is sought, and to solicit comments and information necessary to evaluate the probable impact of the activities upon the respective water resources. The decision whether to issue or deny will in part be based upon that evaluation. All factors that may be relevant to the proposals will be considered.

Persons wishing to comment on or object to the issuance of a proposed permit are invited to submit comments in writing to the Department of Environment and Conservation Division of Water Pollution Control at the address listed above. Written statements received in this office on

or before the date of expiration of the comment period thirty days from the publication date of this notice will become part of the record and will be considered in the determination. The applicant's name and permit number should be referenced.

Interested persons may also request in writing that the director of the Division hold a public hearing on any application. The request must be filed within the comment period and must indicate the interest of the person requesting it, and the reasons that the hearing is warranted. When there is sufficient public interest, the director shall hold a hearing in accordance with Rule 1200-4-7-.04(4)(f).

After consideration of comments submitted during the public comment period, the hearing record if any, and the requirements of federal and State law, the director of the Division will make determinations regarding the final action on each permit. Permit applications, supporting documentation, and related comments are available for review and/or copying.
